## Experience

### Software Engineer @AMYVIE VENTURES

Nov 2022 - present

- Developed and maintained highly interactive and complex web applications for various clients across the globe using various technologies.
- Worked closely with the design and management team to architect, develop and implement several features based on clients' demands
- Created and maintained efficient RESTful APIs, integrated third-party APIs, and handled seamless interaction with the frontend
- Collaborated with cross-functional teams, including designers, product managers, and QA Engineers to deliver high-quality solutions

### Backend Engineer Intern @HNG9

Oct 2022 - Dec 2022

- Wrote modern performant and robust code for a diverse array of internal tasks and projects.
- Communicated and collaborated with multi-disciplinary teams of engineers, designers, and Product managers on a daily basis

### Front End Engineer @NNSONYE

2021- present

- Collaborated with a small team of student designers, developers, and product managers to spearhead the development of the NNSONYE website.
- Developed and maintained code for in-house projects and websites primarily using HTML, CSS, JavaScript, and ReactJS.
- Conducted code reviews, unit testing, and documentation, ensuring code quality and best practices

## Project Experience

### E-Commerce API

Technology Stack - NodeJS, ExpressJS, MongoDB, CryptoJS Hashing Library, Stripe, and JWT

### Crypto Tracker

Technology Stack — Reactjs, Redux Toolkit, Bing News Search API, Coin Ranking Api

### Converter

Technology Stack - Python, MySQL, Flask, Docker, Kubernetes, MongoDB, RabbitMQ

## Skills

### Programming Languages

JavaScript (ES6), Python, HTML, CSS, Typescript, Golang

### Libraries & Frameworks

React, Node.js, Express, Mongoose, SQLAlchemy, FastAPI

### Database

MongoDB, PostgreSQL, Redis, MySQL

### Tools & Platforms

Git, Netlify, Heroku, GitHub, Postman, Jest, Axios, Redux Toolkit, Docker,

## Education

### University of Port Harcourt

2018 - present // Rivers State, Nigeria

Bachelor of Engineering in Electrical/ Electronics Engineering

## Profile

As a skilled software Engineer, I have a solid front-end and back-end development background with expertise in multiple programming languages, databases, and frameworks. I am passionate about delivering high-quality solutions that meet business requirements while providing an excellent user experience.

## Additional Skills

Strong Analytical and problem-solving skills.
